

►► PRE-SCREENING: Connecting Patients to Cancer Clinical Trials

Trillium Health Partners (THP) maintains health records for every patient who receives care at our hospital.

At the Carlo Fidani Regional Cancer Centre at Credit Valley Hospital (CVH), Clinical Trials are one of the many outpatient services that may be available to patients as part of their integrated care.

As a patient of the Cancer Centre, authorized Clinical Trials hospital staff may review your THP health records to see if you may be eligible for any of the hospital-approved, oncology clinical trials being conducted at CVH.

If there are any clinical trials you may be eligible to join, your treating Oncologist, who may also be an Investigator on the study, will discuss these with you along with any other standard of care treatment options that may be suitable for you.

If you are interested in learning more about a clinical trial, your Oncologist will refer you to our Oncology Clinical Trials Nurses who will provide you with more detailed information.

FOR MORE GENERAL INFORMATION ABOUT CLINICAL TRIALS, please visit [itstartswithme.ca](https://www.thp.ca/patientservices/for-patients/Pages/Clinical-Trials.aspx), or visit our Oncology Patient Resource Centre.

FOR MORE INFORMATION ABOUT THE CLINICAL TRIALS being conducted here at Credit Valley Hospital, please visit Carlo Fidani Regional Cancer Centre website (<https://www.thp.ca/patientservices/CancerServices/for-patients/Pages/Clinical-Trials.aspx>), ask your Oncologist, or email our Clinical Trials Office at OncologyClinicalTrials_@thp.ca.

IF YOU DO NOT WISH TO HAVE YOUR THP HEALTH RECORDS PRE-SCREENED for any of our clinical trials, please notify the Oncology Clinical Trials Office by emailing OncologyClinicalTrials_@thp.ca. Your name, MRN# & date of birth will then be added to a list so trials staff know not to look at your health information until you give us permission to do so.
